

Innovative ideas

THE Shuttleworth Foundation is hosting the second SA Innovation Bazaar on September 6.

The Innovation Bazaar is an event aimed at increasing the capacity of smaller innovative projects and providing these projects with the opportunity to network with prospective funders.

The Shuttleworth Foundation is calling on organisations working on innovative, education-based projects to submit their proposals. All projects must be initiated in SA and implementation of those projects must take place in Gauteng and/or the Western Cape. For information, go to www.shuttleworthfoundation.org or contact Vuyi on (021) 970 1206.
